XARA SOCCER

DON'T BE A PLAYER'S LAST COACH

Every coach has to answer the question: how do I want to be judged? Is the won / loss record the true measure of a coach? Is everything else secondary to achieving this end? Or is the character with which your team plays the game the balance to a win at all costs approach? Many players leave the game every year never to return. Most had a coach that left them soured by the experience. Will you contribute to the building of character among your players so that every parent can be proud of what their child took from the experience? Will your players take away lessons that will be used long after a game is over? Competing to win is part of the game but always remember there is **No Victory Without Honor®**.

**NO VICTORY
WITHOUT HONOR®**

Change The Environment In Which The Game Is Played.

The No Victory without Honor® Program changes the environment in which the game is played to one that is positive. The program recognizes the commitment to values that support the success of the players long after the game has ended and creates a better soccer experience for all stakeholders. Be part of the program and build the foundation for your team's success and the creation of a memorable soccer season.

PREMIER CHAIRMAN MESSAGE

By this issue of the Premier Magazine, the topics of NCAA eligibility, Self Promotion and Showcasing the player's talent have all been presented. I am sure the player's who have taken the time to read the information and familiarized themselves with the material presented and then looked at the material referenced at least feels a little more informed on the steps needed to further their soccer careers. And, in reality, that is all CSL can hope for. After all, most of us at CSL are just administrators and it is easy to give advice. The hard part is convincing someone to take it. We can only hope. But from experience, we know any effort the player takes in following our advice will be rewarded.

I will take the time to provide you with just one example that I feel says it all. A few years ago, I was approached by the manager of a GU19 Premier team. Her team had participated in CSL Premier since U16 (at that time CSL only had U16, U17 and U19 age groups in Premier). She informed me that she began reading the Premier Magazine from the very 1st week her team was in Premier. She said she asked every player on her team to read every article and follow every instruction given. She even monitored her player's efforts and progress in following the areas of instruction that were outlined in the articles.

When she had finished explaining what the girls had done, she presented me with a wrapped gift. She asked me to open it which I eagerly did. The gift was an 8 by 10 framed picture of her ENTIRE team – all 18 girls. Each girl was wearing a sweatshirt. All 18 girls were wearing sweatshirts. Each girl had on a sweatshirt from the college they were going to attend in the Fall and play soccer for. All 18 girls received some form of scholarship from a college of their choice. It mattered not if it was D1, D2, D3 or NAIA. It was a college that the girl wanted to attend. A college of their own choice. Ms. Marshall simply said "It worked" and then she thanked us.

For a few years after that, we received dozens of these types of pictures. From both boy's and girl's teams. Recently, the tradition seems to have fallen by the wayside. Youth soccer has become less personal. There doesn't seem to be a common agenda anymore. Things seem to be more personal oriented than team oriented. But no matter, the end result will always be the same – "the Player that puts in the work – that player will reap the benefits." Of that I have no doubt.

Since this will be my last advice giving message for the 2014 season, I do want to cover one area that needs to be covered – and covered now.

Now is the time for the Player to concentrate on his or her game as any professional or future collegiate player should. The Player needs to play each game to the best of his or her ability. He or she needs to play each game

as a team player. The Player needs to act in the best interests of the team. The Player cannot afford to be taken out of his or her game by an opposing player, coach or referee. The Player should not let anyone distract him or her from their objective which is to play the game at their very best and contribute to their team's efforts.

The current Match reports this year show that players have forgotten their responsibilities to not only themselves but to their team. They are letting referees get to them and are either losing focus due to their frustration or worse, getting red carded for their mouth. There is not a single college coach who wants a player on his or her team that cannot control their emotions. They want players who will be an asset to the team, not a liability. A player who receives red cards for losing control will not be on any coach's prospect list.

AND Parents – The game is for your children. It is their game. Your job is to come, watch and support your child and his/her teammates. When you get upset and lose control, you will affect your son or daughter. You will alter their concentration. You will cause them to lose focus. Also, please remember, I have been involved with Premier from its very inception and I have never, and I mean NEVER, seen a referee change any call because he or she has been badgered by a parent. On the contrary, the referees only become more wary of the parents and that is not a good thing.

This is my last informational message for the 2014 season. The next issue, the 5th in the Premier Magazine series, will be the last Premier Magazine for the season. The 5th Issue will celebrate the players and their 2014 Premier season in pictures. There will be team articles included in the issue but the Players themselves will be the highlight of the magazine. After all, the CSL Premier League was created for the players and it is only fitting we end the magazines this year by celebrating the players and their extraordinary love for the game. ⚽

OVERLY AGGRESSIVE PLAY

Ladies and Gentlemen,

I am the parent of a CSL Premier GU15 player, writing to discuss an issue that I am sure you are all aware of. Week in and week out, young people are playing soccer at various levels throughout your organizations. Each and every one of them are giving their all, whatever that is in their young minds. They don't know what level others are playing at, only that they are giving their all for their team. This is a good thing, and teaches them valuable life lessons.

As parents and adults we have many responsibilities to these young people, encouraging, supporting, teaching them the ways of the world, defending them from dangers of all sorts. Part of our jobs is to keep each of these responsibilities in its proper priority. In the competitive environment of club soccer that can be difficult.

In the heat of competition, with 22 players covering over 50,000 square feet of area in pursuit of a rapidly bouncing ball, it is difficult to keep priorities in line. Players play their hardest in an effort to help their team win. They come in all shapes and sizes, some play with more aggression than others, some play with different intent. Everyone relies on the referee to even out those levels of aggression and intent. If the referee allows players with excess aggression and or the wrong intent to overpower other players, injuries occur, and the game of soccer is not being played. Soccer requires a balance of skill AND physicality, creating "the beautiful game" as it is often described. Winning through brutality has no place in soccer. Allowing this type of play to continue is counter to the goals of youth soccer and will damage youth soccer in the long run.

SAFETY OF THE PLAYERS MUST BE THE PRIMARY FOCUS.

I believe this focus is missing in our youth soccer organizations. Players are being allowed to play at whatever level of aggression and intent they possess. If other players get in the way, the thought seems to be that it is their own fault if they get hurt. This is wrong. These players do not know they are too aggressive until someone of authority tells them so by calling a foul or giving them a card. Referees are the authority on the field and if they allow this type of play, the players continue to play this way. And organizations with the wrong focus will continue to teach their players to play this way in the interest of winning.

Referees in those challenging environments are not immune to the heat of competition. But you, as administrators of your organizations are. It is your responsibility to assure referees know that safety is the primary focus and that they are the front line of safety for these young people. The primary goal for your organizations is not to win; it is to instill life lessons in these young people through the game of soccer. Insuring player safety is the responsibility of all of you and every coach and individual involved in these young people's development.

Please, for the good of youth soccer and everyone involved in it, make every effort to assure safety of the players is your primary focus.

Thank you, I welcome your thoughts and comments.

Scott Van Ragsdale

REPLY TO THE LETTER TO THE CSL BOARD OF DIRECTORS

Scott,

Thank you for your comments and expressing your concerns on the atmosphere surrounding the conduct in which our games are played and the manner in which they are officiated. Your concerns have been our concerns for a significant period of time. The conduct you have described in your letter is not limited to CSL games, but is systemic in all sports today; youth, college, adult and professional. And the environment surrounding the game has a substantial impact on the course of any game whether it is an amateur or professional game.

You have specifically identified areas of concern that you feel need attention in order to improve, not only the quality of the game, but the safety of the players. And those concerns are exactly what CSL has been addressing for the last few years, but not in the manner you expect.

CSL is a gaming circuit only. CSL does not have any of its own teams that it is responsible to train, manage or coach. Its members are teams that are under the jurisdiction and control of individual clubs. Clubs that have been sanctioned for league play by Cal South. CSL has no vested interest in any team "winning". CSL has virtually no authority over any of its participating clubs in their training and development of its players.

So – how can CSL help?

Let's start with the Overly Aggressive Play issue. CSL has developed an online scoring system that records

individual player penalty points (Red and Yellow cards) as well as cumulative team penalty points.

Every card issued a player/coach/administrator/parent by a referee is entered into the system. Team penalty points are updated instantly and CSL is notified if a team reaches a certain penalty point threshold and is then contacted by CSL about its conduct. Sanctions are imposed on each team when it reaches 20 accumulated points, 30 accumulated points and then team is disbanded if it reaches 40 accumulated points.

Any player or coach who receives a Red Card is suspended from play for a minimum of 2 games in addition to the game in which he/she received the Red Card. If a player or coach receives a 2nd Red Card, then the party will be suspended for 4 more additional games. Should a player or coach be given Red Card or Sent Off for Violent Conduct, they can be immediately suspended until such time as a hearing is held by CSL to determine if the player or coach shall be suspended for the remainder of the season or for a longer period of time.

All of the above remedies do have a "Chilling" affect on Overly Aggressive Play. But is it enough?

CSL believes that in order to truly affect change in today's sport culture, the environment in which the game is played must be changed. A better experience needs to be created for the game. CSL does believe that a fun, safe soccer season is a basic expectation of every family that commits their child to play soccer.

But this environment cannot be mandated by USSF, USYS, Cal South or CSL. The change must start within the teams themselves. The team must set the example. A team's favorable experience throughout a season will spread throughout the club and soon the entire club will be striving for a better soccer experience.

In order to accomplish this better soccer experience, CSL and XARA have created a program, NO VICTORY WITHOUT HONOR (NVWH). The goal of this program is to have a team commit to certain "Standards for Success". If these standards are met, not only will the team have a better soccer experience, the team will be rewarded for reaching its goals. It is CSL's belief that participation in the NVWH program will create a ground swell that will have a positive effect and change the current atmosphere surrounding the game today. In fact, it already has. You can find these "Standards for Success" and more information on the NVWH program in the CSL Handbook.

The NVWH program is not a mandatory program, participation is a decision made by each team coach/manager. CSL would encourage you to ensure that your team is involved in the program; this will offer your family and the others involved with your team the best platform upon which you can create a better soccer experience and make the environment in which the game is played both positive and safe.

Regarding your comments regarding the creation of a safe playing environment, CSL has been actively engaged in this effort for a long time. We have supported this effort with initiatives such as the distribution of First Aid kits to all teams in the league and the use of the Xara Soccer Safe program. The Soccer Safe Program will

be launched league wide in 2015 and was created to support the creation of a safe soccer environment. The NVWH and Soccer Safe programs will together be a reminder to all players, parents, coaches and administrators that soccer is a more enjoyable experience for everyone when the game is played in a positive, safe environment.

As to the referees' role in the game, there is no doubt that he or she plays a critical part in creating the competitive atmosphere surrounding the game. But let's be clear, the players, coach and spectators also affect the attitude of the referee. But a good referee should be able to set the tone, shed any negative elements from the players and sidelines and officiate with professionalism. That is what is expected of every referee. But sometimes that is not what happens.

CSL has no input into the training of a referee. The training, qualifying and licensing of a referee is in the sole jurisdiction of Cal South. CSL is mandated to use only Cal South Certified Referee Associations and Cal South licensed referees. Cal South and George Noujaim, the Cal South State Referee Chairman, do a very good job in recruiting and training referees. But they can do only so much. They are not on the fields every day and cannot monitor all 7,000 referees as to each referee's consistent game capability.

CSL has instituted a program to assist in evaluating a referee's on the field performance. On each match report generated by the CSL Online System is the Center Referee's name and an email address for that referee's assignor. A return email from the assignor is required to be sent to the team coach or manager and comments are reviewed periodically by CSL personnel and evaluated as to whether or not a pattern is present and requires action by CSL.

While the above procedures assist in monitoring current referee's job performance, they do not address the issue of creating the better environment that is needed now.

In order to address this issue, this year CSL has created a NVWH Program for referees. The "Standards for Success" differ from that of teams but have the same desired result: to improve the quality of the game and the experience realized by the players and spectators.

The referee's "Standards for Success" involve continuing referee courses, instruction, monitoring, assessments and physical conditioning. Once the "Standards for Success" have been met, assignments for higher level competitive games will be available to the referee. CSL acknowledges that the results will not be widely seen for a few more years, but changes will occur and the environment surrounding the game will greatly improve.

CSL is making every effort to not only insure the safety of every player but also to create a soccer safe environment so everyone may have a better soccer experience.

Sincerely,

The CSL Board of Directors

HG EAGLES

HG Eagles SC BU17 lead by Coach Eric Leon is going into the 2014-15 Premier Season in hopes to make history. To be the first team from HG Eagles SC to win the Premier Championship and create the standard for future teams from our small but very competitive club.

We are humbled and honored to be apart of the top flight in Coast Soccer League. We are heading into our third year in CSL Premier with high hopes to showcase our skill and our determination to reach the pinnacle. Our team has added key players to its already solid core group that has been together since the team was formed and began playing competitive club games at the Bronze U11 division. Now as a result of our players hard work and effort and key additions we formed the strongest side our team has ever had. And with the leadership of long time dedicated head coach Eric Leon, an HG Eagles SC Alumni himself, the team is determined to finish with the top spot this season. Our boys have been training very hard to make that vision into a reality.

With a crafty and skillful offensive attack and an extremely greedy defense, we have created an exciting brand of soccer that has given us a lot of recent success with winning the Players Showcase in Las Vegas NV in March with an undefeated 5-0-0 record with 12 goals for and only 1 against. And reaching the semi finals of the Cal South National Cup tournament in where we played in a total of 10 games going with a 7-1-2 record scoring 16 goals and only allowing 2 goals in those 10 games. Participating and Competing with the Best of the Best in Surf Cup playing with teams from Atlanta Georgia, Brooklyn New York and Kansas City Kansas.

And finally earning acceptance into the exclusive California Regional League where we currently stand in a top 4 position. Our boys have been playing the highest levels all pre season long in preparation to endure the premier season and be able to finish with strong positive results to help us reach the top spot.

We have now put our stamp in our age division. We feel that we have now established ourselves as an elite top 10 team in our age group.

We have lots of ambitious goals set for us, along with winning Premier our boys have set their site on winning CSL League Cup, repeating our run in Cal South National Cup, return to Las Vegas and defend our Players Showcase Championship, win the California Regional League, be accepted to participate in Dallas Cup and return to Surf Cup. One top of team's goals list and most importantly, coach Eric Leon has made it a personal mission to get as many players to a 4 year schools after they graduate from high school as possible. With almost half of the team being high school seniors, coach Leon wants these boys to move on to College to continue their education and receive and learn the tools to become leaders, owners, role models, overall productive members of society. Our players learn life skills and lessons through our beautiful game. We are very excited for what 2014-15 has in store for our HG Eagles SC BU17 and the future of our boys. ⚽

SANTA BARBARA SOCCER CLUB

Santa Barbara Soccer Club's ("SBSC") Boys Under-17 was originally formed at the U-9 age level. By the time the boys were U-11's the team had incorporated a few other players and from that point forward that group of boys have served as the core of the team. The team really enjoys playing together and has a special bond as a group – the boys spend a lot of time together on and off the field.

Drawing from his own experience as a professional player, head coach Rudy Ybarra, had a very clear vision and idea of what philosophy he wanted to teach this group of boys. For Rudy it was clear that he wanted to teach this group of boys how to play "Total Football" and mimic the Dutch renowned international coach, Rinus Michels, that once guided him as a player when he played for the Los Angeles Aztecs in the North American Soccer League in the late 1970's.

Rinus guided the national team of Holland with players like Johan Cryuff to two consecutive World Cup finals (West Germany 1974 and Argentina 1978). Many soccer experts consider Rinus to be the father of modern soccer because it was those national teams of Holland that showed the world how to play Total Football in which all players attack and all players defend. The Dutch Orange Machine of the 1970's also showed the world good quick possession with constant movement off the ball in order to give options to each other.

So since the age of U-9, Rudy began to over emphasize the importance of good technical skill along with quality reception and distribution of the ball. One of Rudy's goals was to create an environment that constantly challenged the boys physically, mentally and

technically; so that they would become more comfortable on the ball so that the team could have a possession oriented attack. The other piece of the puzzle for Rudy was to make sure that the boys made good soccer decisions and so small sided tactical games and transitional possession games were introduced to the boys.

In order to develop their soccer IQ, Rudy was constantly putting the boys in situations which they had to diagnose quickly and then make a decision on. Rudy understood that he had to develop the soccer IQ of each individual as well as the team as a collective unit. In

order to be a good team, Rudy believes that "players must make good decisions on and off the ball". This led to many exercises and possession games becoming repetitive at training sessions so that the boys were constantly put in the same situations over and over again so that in time the decision making process would become much easier and quicker.

This group of players has played in every possible major competition in the state of California and in the country. The boys headed into this year's National Championship as current back-to-back champions and were looking to three-peat but unfortunately were eliminated in the semifinals. In the last five years, the boys have gone on to win the Cal South National Cup and the US Youth Soccer Region IV Championship on four separate occasions. Another accomplishment that the boys were able to achieve was winning the California Regional League in its inaugural season (2013-2014).

The team is excited about returning to Coast Soccer League this season as they are looking forward to playing in the most competitive league in the country. The group is focused and they are on a mission to regain their title as national champions. ⚽

GREATER LONG BEACH FURY

Fury is looking forward to participating in their second season in CSL's Premier League. Coached by Joe Ojeda, Fury has built a reputation of being among the best of the best and is made up of 15 very young players (most of them born in the year 2000). Their resume of accomplishments include CSL Gold Champions; National Cup Semi-Finalists; SCDSL Tier 1 Finalists; Surf Cup XII Semi-Finalists; Silver Central Champions and the list continues to grow.

Fury was first created in 2008, with a group of 8 year old girls that played with so much passion, the only way to describe them was by calling them "Fury". Fury was taken to the next level of competitive soccer by introducing the girls to Coach Joe Ojeda. It was his efforts that transformed this team from being good to great.

Seeing the talent and athleticism these girls had to

offer the sport, Coach Joe Ojeda developed Fury year after year, taking them from Bronze Finalists, to Silver Champions, Gold Champions, and now Premier. Not only has his knowledge and experience help lead the team to many championships and promotions, he has also developed his players individually year after year, producing seven ODP/Pro+ pool players. Fury, not only focusing on just wins with pure athleticism, but the actual possession, composure, and skill the game depends on at high levels.

Fury continues to rise recently qualifying to participate in this year's California Regional League. With the commitment and loyalty to each other, Fury calls themselves not only a team, but also a family. Together, they are confident that they will handle any challenges that lie ahead with furious hearts and determination. ⚽

LA PREMIER FC

The LA Premier FC GU-15 PREMIER Team is led by a staff of Head Coach Tracey Kevins, Asst. Coach Victoria Boardman and Team Manager/Asst. Coach Mitchell Thomas. Coach Kevins also is a Coach of the LA Blues W-League Soccer Team. The LA Blues went 15-0 this past 2014 season and WON the 2014 W-League Championship in Florida in the end of July 2014. The LA Blues defeated the Washington Spirit Reserves 6-1 for the Title.

Coach Boardman is a physical trainer who owns her own Company developing and training athletes. She works with and trains women from the U.S. National Team. Team Manager Mitchell Thomas is going into his seventh year in Coast Soccer League and Cal South.

The LA Premier FC GU-15 PREMIER Team is entering it's Second year in the Coast Soccer League PREMIER Division. Since Coach Tracey took over the coaching duties of this Team in January 2014, the Team has Won Two tournament Championships and had two Finalist appearances over the summer of 2014.

The most recent statistics show, 24 games played, with a Record of 15-5-4, scoring 38 Goals for and allowing ONLY 18 Goals against, a 2.11 Goal Ratio. This record reflects a Win Percent of 62.5%.

Both Coaches are tough Task Masters. Girls EARN their spot on the Roster and each week for playing time in the Game Matches. Our Coaches bring with them a Fundamental knowledge of the Human body and the physiology of an athlete. They know and teach proper warm up and cool down exercises. They recognize and react immediately to sprains, stains and injuries. They completely advocate a curriculum that does NOT overwork or stress out the human mind and body.

The integration and implementation of this knowledge protects the Team players from injuries found to be common elsewhere. This Team rises to the chal-

lenge. In a summer tournament when faced with an injury depleted squad, the Team (11 players ONLY) played two matches on the same day, 5 hours apart, and WON BOTH matches 3-1. The consensus was WOW, something nobody had seen before. Our expectations and goals are HIGH, but WE will achieve them with continued hard work and perseverance. ⚽

CELTIC HIBS

"Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do." – Pele

Since its formation, the Celtic Soccer Club has built a solid quality brand, with a well-deserved reputation of producing top shelf soccer teams. The 2014-2015 BU15 Celtic Hibs are no exception as they look forward to competing in their first CSL Premier season.

This will be the team's fourth season together having steadily progressed from its humble BU12 Bronze inception. Beginning with the end result in mind, each season's expectations, set forth by the players and Coach, are to train hard, play harder and compete at the highest level of competition. Head Coach Luis Ramirez's passion for the game, attention to detail, and dedication to perfection has directly paralleled each player's potential, soccer intelligence, confidence and both technical and tactical

abilities. Each player has embraced the coach's teachings of flexible strategies and adaptive tactics resulting in the team's ability to adapt and perform in any formation and competitive situation.

Characterized by its relentless pace, talented attack and solid defensive unit, this team is electrifying to watch. After a first place, 11-3 Bronze season, capped off with a finalist showing at

State Cup, the Celtic Hibs were ready to advance. Further solidifying their determination and hard work, a perfect 12-0 first place Silver season guided their decision to skip Silver Elite, and compete to a second place 7-2-2 Gold Season. With an impressive 30-5-2 record, and 107 goals for and 34 goals against, over the last three seasons, the Hibs are optimistic, excited and thankful for the opportunity to compete at the Premier level and looking forward to learning, creating memories and achieving success in the 2014-2015 season.

Good Luck Celtic Hibs, and remember... "You Will Never Walk Alone" #morethanjustateam. ⚽

SANTA MONICA UNITED

Santa Monica United (SMU) G96 has risen rapidly from Bronze to Premier within the last five years through the girls' strong dedication, commitment, strength of spirit, work ethic, and talent. The team is honored to be playing among the top teams of the nation in Coast Soccer League Premier for the 2014-2015 season.

The girls started a winning streak under the coaching of Emanuele Appellius, winning many tournaments and going undefeated in their 2011-2012 silver season to place first in Silver North. They went on to win the 2012 Cal South State Cup, and advanced the next season directly to Gold, where the next year, they were promoted to Premier.

SMU G96, like many other youth teams, is focused on college recruitment, but also emphasizes developing a unique, clean style of play. Along with the tutelage of Coach Emanuele Appellius and Assistant Coach Iman Bearde, the girls are working on a more professional style of soccer. The team concentrates on the mastery of quick passes hit with pace, fast movement in antici-

pation for the ball, and overall better technique in handling the ball, especially in the important first touch.

The players of SMU G96 are also studious and work hard in areas other than soccer. The girls volunteer with outside organizations as well as within the SMU club, where the girls serve as mentors for the G03 team. At school, many of the girls take Honors and AP classes and have GPA's close to or beyond 4.0. Some also play other sports as well as soccer, and have been recognized for their accomplishments in volleyball, softball, track, and cross country.

The sisterhood SMU shares is a one-of-a-kind experience that cannot be fully described. The girls laugh together, cry together, win together, and sometimes lose together. The team looks forward to the experiences the next season will bring and the opportunities that will come with them. They love the sport they play and truly look forward to another year of competition at the Premier level. ⚽

GREATER LONG BEACH SPEED DEMONS

The Speed Demons are a group of players that enjoy playing competitive soccer at the highest level. One of the motivating factors of the success of this team is the fact that the girls genuinely enjoy each other on and off the field. We find it important for the players to enjoy training and playing soccer with each other so that they may remain motivated to continue their soccer experience.

The Speed Demons have participated in both CSL Premier and the National Premier Leagues every year which

they have been available since GU14. We have routinely participated in college showcase tournaments such as the Las Vegas Players Showcase and Pleasanton RAGE to expose our players to the best competition in the region. Our team has traveled and met with college coaches to gain insight and information regarding playing soccer at the collegiate level.

We believe playing the CSL Premier Fall season at the UCI venue against some of the best players in southern California on the best fields in the area with the high

caliber referee crew assignments in Cal South provides for the best atmosphere to develop our players.

The coaching staff and parents are very proud of all our players. We all do our best to inspire, motivate and cheer every girl on the team. Our team is not only made up of high achieving athletes, but also advanced scholars with an average team GPA in excess of 3.67. We expect all players on the team to excel in continued education, sports and life. ⚽

FREEDOM FC

This team is the first Boys' Freedom FC team to play at the Premier bracket. Starting their third year at this level. This team has been revamped, starting with new leadership under Coach Louis Borja. The majority of the players on the team have been playing together for approximately four (4) years, getting their start at the Silver bracket and moving directly from Silver Elite to Premier.

This year, Freedom FC's B98 team added new players who will add to the team's talent. The boys are training hard and have become a tight-knit group of players, prepared and confident to take on the season.

Coach Louie Borja, who is also the Director of Coaching for Freedom FC, has over 6 years of coaching experience,

developing successful players on and off the pitch. Coach Borja is so very proud of the hard work and determination that the boys are putting in to ensure a successful season.

Freedom Futbol Club is dedicated to instilling the love of soccer through the education and development of youth players, committed to creating winners on and off the field. Our Premier B98 team is a testament to this mission statement.

The players, family and friends on this team demonstrate that soccer is more than just a sport and look forward to creating more meaningful and lasting memories together.

Here's to a rewarding 2014 – 2015 Premier season!

CROWN CITY UNITED

There aren't many teams more dedicated to learning how to play soccer than the Crown City United U15 girls, and their record proves it.

Four years ago, Coach James Mitrof looked at the players he and parents had recruited from AYSO and envisioned a team that could play at the Premier level. Now he has one. Each year, since they joined the Coast Soccer league at the bronze level, Crown City has finished at the top of their division and moved up.

When offered the opportunity last year to skip gold and move straight to premier, Mitrof declined, choosing to prepare the team for the rigors of premier play with another year of seasoning. The decision paid off. The team once again won their way into the next level, and went on to finish in the sweet 16 of their first National Cup.

Entering this season, the roster stands at 16. Five of the girls have been playing together since the team began, most have for three years or more. Consistency – of roster, coaching and dedication – are the team's greatest strengths.

Flexibility too has contributed to success. Many of the girls regularly play various positions, which gives the team options in case of injury and when facing a wide diversity of opponents.

Mitrof and his assistant coach Steve DiFronzo believe in pacing rather than pressure, limiting the number of tournaments to avoid burn-out and focusing instead on season preparation.

"Now its time to showcase these girls and get them to the next level," Mitrof says. "I'm really proud of their tactical ability and their psychological development."

Win, lose or tie, CCU GU15 plays soccer the way it's best played: As a team. ⚽

CARLSBAD ELITE

Carlsbad Lightning and Carlsbad Wave soccer clubs merged, following a favorable member vote from both clubs. The new combined club has been named Carlsbad United F.C., whose vision is to be recognized as a "Pioneering Leader" in total player development at local, regional and national levels, building character, confidence and self-esteem.

The Elite Program at Carlsbad United F.C. provides the exposure, connection and placement of players into colleges and universities through participation in top-notch leagues and college showcase exposure events. The Elite Program also provides direction and education to engage Club student-athletes in the college search and selection process.

Carlsbad Elite G00's players are proud to be part of this Elite program and the Coast Premier League. During the 2013-2014 year, the team achieved a second place finish in the San Diego Developmental Academy playing up in Flight 1 of the U14 bracket, and a 7th place finish in the California Regional League. Other strong showings were seen in the Slammers FC Classic (semi-finalists), Eagles Summer Classic (finalists), and Carlsbad Premier Cup (finalists). As a result of these accomplishments, the team earned an invitation to participate in the California Regional League, as well as the Coast Premier League for the 2014-2015 season.

As many teams do, Carlsbad Elite G00 has experienced changes and with this change comes the addition

of dedicated coaches and talented players. The team is fortunate to have the Carlsbad United F.C. Girls Director and Carlsbad High School Girls Varsity Soccer coach, Carl Higham, as their head coach. Carl is assisted by Coach Brett Williams. Brett also coaches the Carlsbad Elite G98 team, as well as the San Pasqual High School Girls Varsity Soccer team. Together the coaches have taken a strong, hard working group of Carlsbad Lightning players (many who have been with the team since U8), added talented Carlsbad Wave players, and forged them into a truly "United" team that is ready to play at the next level of competition.

With committed coaches, a solid returning roster, and the addition of talented new players, Carlsbad Elite G00 will without a doubt, add to their successes in the upcoming 2014-2015 season. ⚽

F.C. GOLDEN STATE WHITE

F.C. Golden State White is led by Coach Bob Friedland, Bruno Costa, and Guilherme Talamoni and is excited to be playing in their second year in CSL Premier League.

The team was started as a scrappy BU11 team at the inception of FC Golden State seven years ago and has evolved into a highly competitive team that is always hungry to learn and get bet-

ter. The team is currently ranked ninth in National rankings and as high as first place in the last 12 months and number 1 California South.

FCGS White always looks to compete against the top competition whether at local, State, Regional, or National levels. In an effort to be exposed to the best teams on a National and International

level, the team has travelled extensively the past few years to compete at top tournaments. This team is always hungry to meet new challenges and competition at the highest level. Their accomplishments include:

- Dallas Cup semi-finalists twice including the Super Group for U17 this year with a loss to Club America
- Far West Regional League Champions,
- Cerritos Memorial Cup Champions where they eliminated Selection LA of France
- Region IV Champions in Hawaii,
- 3rd place in US Youth Soccer Nationals in Kansas and returned to the Nation Championships for a second time
- National League Champions
- NHB Champions twice
- Got Soccer Tournament Champions
- National President's Cup
- West Coast Champions

The above are amongst many other titles earned.

"Developing The Golden Touch" is the motto at F.C. Golden State and this BU19 Premier team takes the motto very seriously. With a very strong work ethic, the team rarely misses a practice and are eager to improve their skills.

True teamwork, love of the game, and an intense desire to succeed drive this team week after week to play at the highest level. The team's passion is evident and infectious! We all wish we could bottle the energy of this team!

Focused on their college opportunities and beyond, the team understands and strives for high performance on and off the field. Participation and success in Far West Regional League, Regionals, Nationals, USA Cup and top ranked tournaments have given the team great experience and exposure as they have their sights set on getting into college or beyond in their soccer career. All at the club are proud of them for their many accomplishments, continued growth as young adults, and their dedication to their grades in high school. The club looks forward to placing all of them in college and having them continue this season and beyond as role models and guides for the rest of the club.

The future is very bright for this awesome group of boys! ⚽

TFA BARCA IE

TFA Barca is entering its 3rd year in Premier League. The core team has been coached by Larry Dube for more than five years and have continued to remain together with additional talents that have contributed to their successes. In preparation for the season, the team has participated in some college showcases such as the Texas Challenge Shootout and RAGE College Showcase.

Along with extreme conditioning and foot skills, Coach Larry focuses on teaching the girls the tactics of the game, aggression, and anticipation. The girls have great chemistry on the field. Since there have been many injuries this past season, many of the girls had to learn

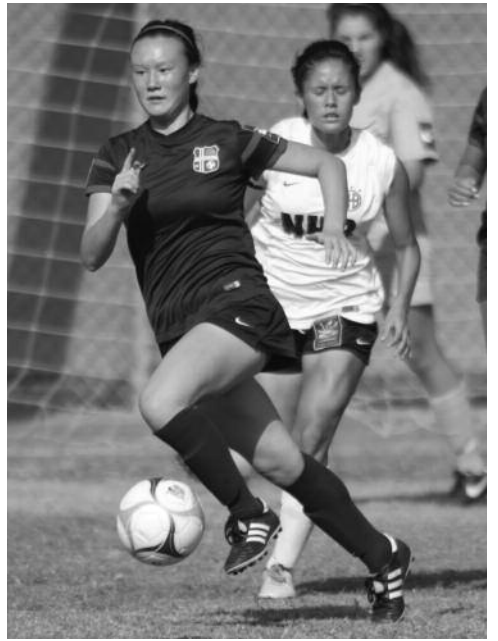

to play other positions. Even with these last minute changes, they have been able to adjust and continue to play as a team to finish the job.

Many of the girls have plans to play in collegiate soccer along with pursuing a career. Some are currently taking AP classes and have obtained very high GPAs through their high school years. Most have also played in Varsity teams for their high school for the past seasons.

Despite the injuries and new adjustments, the girls have managed to keep a positive attitude and have stayed focused on their game. The girls are looking forward to another competitive season! ⚽
